

CUSTOMIZED SYSTEMS

CUSTOMIZED RING BIT SYSTEMS are used when the job is so challenging that standard products are not enough. For these purposes we will make a project specific product where the design and materials will be chosen depending on customers requirements.

Applications for **customized systems** are e.g:

1. Drilling casing in extremely tough overburden
2. Long distances casing pulling in solid rock
3. Mine dump leaching
4. Drilling with internal grouting pipes
5. Hole openers
6. Rock removal drilling

DRILL PIPES & ACCESSORIES

DRILL PIPES

- Friction welding 48-140mm
- Large diameter pipes 140->
- Cold Drawn Seamless pipes
- High strength, straight pipes with no scale
- API certified testing after production

REVERSE CIRCULATION (RC)

- Friction welded dual wall pipes
- Pipes up to 140mm
- RC accessories
- Complete RC conversion kits

ADAPTERS/SUBS

- Wide range of standard cross over subs, saver subs and subs with API threads
- Customized subs by your specifications
- The subs are made out of micro alloy steel with a hard surface for wear resistance and a tough core for fatigue resistance as standard

ACCESSORIES

- Wide range of accessories for drilling
- Non-return valves for mud and air
- Stabilizers, wrenches, hammer sleeves
- Chucks with guiding, fishing and lifting tools

DRICONEQ IS NOW A PART OF MINCON GROUP
